PETITION TO STOP PARTIAL-BIRTH ABORTION

Twice before, Congress has passed bills to ban the brutal practice of partial-birth abortion, in which a well-developed baby is mostly delivered alive before being killed. President Bill Clinton vetoed those bills, so they never became law - - but now the president is George W. Bush, who is eager to sign the ban. The U.S. House of Representatives will easily approve the ban, but Senator Tom Daschle and the current leadership of the U.S. Senate will try to block the bill. Please sign this petition to Senator Daschle, who is the Senate Majority Leader (Democratic Leader), urging him to allow the bill to ban partial-birth abortions (H.R. 4965) to be approved and sent to President Bush for his signature.

"After dilating the cervix, the physician will grab the fetus by its feet and pull the fetal body out of the uterus . . . the head will be held inside the uterus by the woman's cervix. While the fetus is stuck in this position, dangling partly out of the woman's body, just a few inches from completed birth, the physician uses an instrument such as a pair of scissors to tear or perforate the skull. The physician will then either crush the skull or will use a vacuum to remove the brain and other intracranial contents from the fetal skull, collapse the fetus' head, and pull the fetus from the uterus."

-Supreme Court Justice Clarence Thomas describing partial-birth abortion in his dissent

Stenberg v. Carhart, June 28, 2000
